Predictive Maintenance • Electrical • Calibration Product Line Card

Predictive Maintenance

ALL-TEST Pro Div of BJM Corp. Instruments and software for testing, troubleshooting, and predictive maintenance monitoring of electric motors. Both off-line and on-line test systems for electrical and mechanical health.

Commtest Vibration analyzers, portable and permanent installations

CTC (Connection Technology Center) Vibration analysis hardware—sensors, transmitters, cables, junction boxes and more.

Electrophysics Infrared cameras/thermal imaging

Global Maintenance Tech Infrared viewing windows / inspection ports

iLearn Interactive/Mobius Vibration training and technical resource programs

IRSYS Low cost thermal imagers

PredicTech Machine monitoring/protection components and systems

SDT North America Ultrasonic inspection tools and software

Electrical Testing

AEMC Instruments Electrical test instruments including Megohmmeters, micro ohm meters, current and harmonic meters and probes, power meters, data loggers, and other general test instruments.

Dent Instruments Recording poly-phase power meters, also process dataloggers.

Extech Electrical and general test instruments including sound level, temperature, pressure, pH, humidity, and many more.

FLUKE DMMs, clamp-on meters, thermometers, power meters, calibrators, and more.

High Voltage Inc High voltage test instruments including VLF AC Hipots, AC and DC Hipots, Oil Dielectric Test Sets, Lift Truck Testers, and Cable Fault Locators

Power Monitors Inc (PMI) Power quality scanners/recorders and software

SensorLink Meters and recorders for high voltage applications

Yokogawa Clamp on meters, insulation testers, multimeters, bridges, decade boxes, and more

Calibration Instruments

Martel Electronics/Beta Calibrators Field and laboratory calibration instruments: DC, Temperature, Pressure, and multi-function process calibrators

Prime Technologies Procal Calibration management Software

Ralston Instruments Pressure calibration hose kits, fittings, hand pumps

SI Pressure Calibration hand pumps, deadweight testers, digital pressure calibrators

Techne Dry block calibrators and calibration baths, fluidized baths, precision thermometers

Other

BW Technologies Portable gas monitors for confined space monitoring and personal protection. Gas transmitters and fixed systems for toxic, combustible and oxygen hazards

Marsh-Bellofram :

Bellofram Pressure regulators, I/P and E/P transducers and controllers, air relays,

Marsh Instruments Pressure Gauges,

TCP Industrial temperature sensors

STI Automation Products Pressure sensors/transducers

Yokogawa Switchboard Meters, Analog and digital panel meters, power transducers, also CT's and PT's.

Budgets will always be tight. Deal with a professional and spend yours well!
