- Run a program in real time mode
- Send programs to the calibrator
- Retrieve programs from the calibrator
- Retrieve test results from the calibrator
- Erase test results
- Password protection
- Full on-line help

Shows a visual representation of a 10 step program for a 650H calibrator.

Shows a program running in real time mode. Program is currently running step 1 of the 10 step program, with data being logged and graphed at 60 second intervals.

Ability to zoom in on any area of the graph. Clicking on any point will display the reading number, the temperature and time the reading was taken.
